PROFESSIONAL SUMMARY

Computer Science Engineering graduate with hands-on experience in Java, JavaScript, HTML, CSS, SQL, Python, and application development. Skilled in developing software applications, building user interfaces, working with databases, debugging issues, and implementing efficient solutions. Strong foundation in object-oriented programming, problem-solving, software development, and data processing. Seeking Frontend Developer or Backend Developer opportunities to contribute to application development and deliver reliable software solutions.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Python
Frontend Development: HTML5, CSS3, JavaScript
Backend Development: Java, Backend Development
Database: SQL
Application Development: Android Development
Tools: Android Studio, Git, GitHub
Machine Learning: TensorFlow, Hugging Face Transformers
Core Concepts: Object-Oriented Programming, Problem-Solving, Debugging, Data Cleaning and Preprocessing

PROJECTS

Kannada Abstractive Text Summarization with Sentiment Analysis

- Developed an NLP-based application to generate abstractive summaries and perform sentiment analysis on large text documents.
- Implemented the project using Python, Hugging Face Transformers, and TensorFlow.
- Applied natural language processing and data processing techniques to analyze and extract meaningful information from text.

Expense Tracker App

- Developed an Android application for tracking daily expenses and maintaining spending records.
- Implemented application functionality using Java, XML, and Android Studio.
- Designed application interfaces for recording and managing expense information.

Surya-Shakti Solar Monitor

- Developed an Android application for monitoring solar power generation and energy usage.
- Implemented the application using Java, XML, Firebase, and Android Studio.
- Built functionality for recording and tracking solar energy generation and consumption.

EDUCATION

Bachelor of Engineering in Computer Science — **CGPA: 8.0**
BLDEA's V.P. Dr. P.G. Halakatti College of Engineering and Technology, Vijayapura

Pre-University Course (PUC) — **Percentage: 91%**
Excellent Science PU College, Vijayapura

CBSE – Class X — **Percentage: 78%**
Anandathirtha Vidyalaya, Kurkar Village, Udupi
